

Brazos River Authority

WPP Grant Goals

Brazos River Authority

Long-Term Goals of Grant

- Protect and restore water impacted by non-point source bacterial pollution
- Develop a watershed-based plan that includes:
 - Assessment
 - Implementation
 - Education

Brazos River Authority

Short-Term Goals of Grant

- Collect data to help identify bacteria sources
- Conduct assessment activities to determine the effect of the bacterial pollution
- Conduct outreach efforts that will help educate and initiate action at the local level
- Determine which BMPs should be used in the watershed
- Determine effective load reductions for recommended BMPs
