

AGENCY PRESENCE IN THE NORTH BOSQUE RIVER WATERSHED

Agency/Entity: United States Army Corps of Engineers (USACE)

Web Address: <http://www.usace.army.mil>

Brief Introduction: The United States Army Corps of Engineers (USACE) is made up of approximately 34,600 civilian and 650 military men and women. These military and civilian engineers, scientists and other specialists work hand in hand as leaders in engineering and environmental matters. The diverse workforce of biologists, engineers, geologists, hydrologists, natural resource managers and other professionals meets the demands of changing times and requirements as a vital part of America's Army.

Agency/Entity Interest in North Bosque Watershed: Consistent with the Corps mission to provide quality, responsive engineering services to the nation, the USACE is often involved in planning, designing, building and operating water resources and other civil works projects related to flood control, environmental protection, etc.

Current Involvement in North Bosque Watershed Projects:

- [Middle Brazos Feasibility Study](#)
- [Lake Waco Wetlands](#)
