

## PROJECT FACT SHEET

**Project Title:** Water Quality Data Coordination

**Project Lead:** [Brazos River Authority](#)

**Project Website:** <http://wqweb.brazos.org/>

**Funding Source(s):** EPA / TCEQ / Authority

**Project Partner(s):** Carter & Burgess / [TIAER](#) / [USGS](#) / [TCEQ](#) / [City of Waco](#) /  
Blacklands Research and Extension Center

**Project Description:** In concert with the [watershed coordination effort](#) undertaken by the Brazos River Authority, a data repository for all North Bosque and Leon River water quality data is currently being developed. The repository will be web-based and will allow concerned residents, stakeholders, or any otherwise interested party to query and download available water quality data from monitoring stations within the watershed. Data may be contributed by various entities such as Authority, TCEQ, TIAER, USGS, BREC, City of Waco, etc.

**Potential Project Benefits:** Will help to increase awareness of water quality issues by making actual data available for public inquiries.

**Current Project Status:** Working group of contributing entities met in June 2003. Discussed project scope and began logistics evaluation of data transfer. Site was activated in June 2004.
