Independent Auditor's Report

To the Retirement Committee
Retirement Plan for Employees
of Brazos River Authority
Waco, Texas

Report on the Financial Statements

We have audited the accompanying statements of fiduciary net position of the Retirement Plan for Employees of Brazos River Authority (the "Plan") as of February 28, 2015 and 2014, the statements of changes in fiduciary net position for the years then ended, and the related notes to financial statements, which collectively comprise the Plan's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

WEB: PADGETT-CPA.COM

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Plan as of February 28, 2015 and 2014, and the changes in fiduciary net position for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

As described in Note B to the financial statements, effective March 1, 2014, the Plan adopted the new accounting guidance contained in Governmental Accounting Standards Board ("GASB") Statement No. 67, *Financial Reporting for Pension Plans – An Amendment of GASB Statement No. 25 Standards of Governmental Accounting and Financial Reporting*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require the Management's Discussion and Analysis – Unaudited, Schedule of Changes in the Employer's Net Pension Liability and Related Ratios – Unaudited, Schedule of Employer Contributions – Unaudited, Schedule of Investment Returns – Unaudited, and Notes to the Required Supplementary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the financial statements, is required by GASB, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management's Discussion & Analysis

**Retirement Plan for Employees of
Brazos River Authority**

MANAGEMENT'S DISCUSSION AND ANALYSIS

February 28, 2015 and 2014 (unaudited)

The management's discussion and analysis for the Retirement Plan for Employees of Brazos River Authority (the "Plan") provides a narrative overview of the financial activities and funding conditions for the fiscal years ended February 28, 2015 and 2014.

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis is intended to serve as an introduction to the Plan's financial statements. The financial section consists of the Plan's basic financial statements, notes to the financial statements, and required supplementary information.

The Plan's Financial Statements

The Plan has two basic financial statements: a statement of fiduciary net position that provides information about the fair value and composition of plan assets, plan liabilities, and plan net position; and a statement of changes in fiduciary net position that provides information about the year-to-year changes in fiduciary net position. On October 18, 2010 the Board of Directors of the Brazos River Authority approved a resolution to amend and restate substantially the form of the Plan effective November 30, 2010. The resolution spun-off the defined contribution portion into its own plan. Prior to November 30, 2010 the Plan's benefit structure was a combination defined benefit and defined contribution. Beginning October 1, 2007, all existing employees, and any employee hired after that date, transitioned to and became members of the Texas County and District Retirement System (TCDRS). TCDRS is a statewide agent multiple-employer public employee retirement system consisting of 624 nontraditional defined benefit pension plans. The notes to the financial statements include a brief plan description and a summary of significant accounting policies. Additionally, the notes to the financial statements contain information about the plan, including contributions, investment concentrations, valuations and risks.

Condensed Financial Information

Condensed Financial Information	February 28, 2015	February 28, 2014	February 28, 2013
Fiduciary net position			
Total Assets	\$ 21,902,702	\$ 21,728,957	\$ 20,288,366
Total Liabilities	(7,401)	(7,415)	(9,670)
Total fiduciary net position	<u>\$ 21,895,301</u>	<u>\$ 21,721,542</u>	<u>\$ 20,278,696</u>
Change in net position			
Net investment income	\$ 1,226,444	\$ 2,420,496	\$ 1,474,272
Employer's Contributions	682,436	750,287	655,971
Benefits paid to participants	(1,656,340)	(1,639,262)	(1,606,124)
Administrative expenses	(78,781)	(88,675)	(121,546)

**Retirement Plan for Employees of
Brazos River Authority**

MANAGEMENT'S DISCUSSION AND ANALYSIS

February 28, 2015 and 2014 (unaudited)

Financial Highlights

- Fiduciary net position reported in the financial statements is \$21,895,301 for the fiscal year reported. This compares to the previous years when fiduciary net position reported was \$21,721,542 in 2014 and \$20,278,696 in 2013. These assets are held in trust to pay pension benefits to employees.
- On August 19, 2013 the Retirement Committee adopted changes to the investment policy that affected the Plan's asset allocation ranges and enhanced the equity portion of the Plan assets. The revised guidelines state that the equity funds have an allowable range of 15%-40% for domestic large cap, 7.5%-12.5% for domestic small/mid cap and 12.5%-17.5% for international funds. The fixed income funds have an allowable range of 15%-40%. The Master Limited Partnerships (MLPs) have an allowable range of 0%-15%, Real Estate Investment Trusts (REITs) have an allowable range of 0%-15% and Private Equity investments were added with an allowable range of 0%-10%. The cash equivalents have a maximum range of 10%. The Plan's asset allocation at February 28, 2015 and 2014 was as follows:

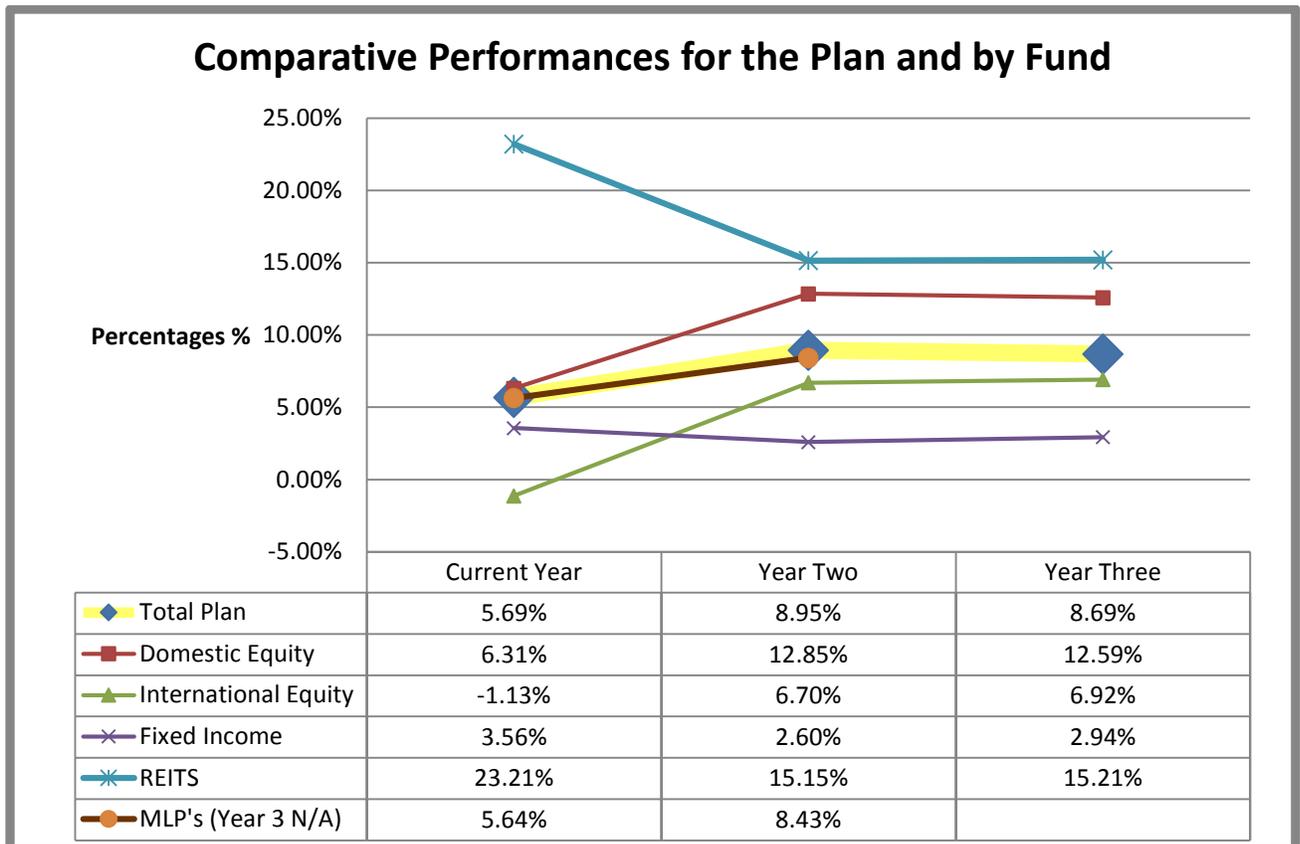

**Retirement Plan for Employees of
Brazos River Authority**

MANAGEMENT’S DISCUSSION AND ANALYSIS

February 28, 2015 and 2014 (unaudited)

- During the plan year ended February 28, 2015 and 2014 the employer made an annual required contribution of \$682,436 and \$750,287, respectively. See Note A in the accompanying financial statements
- During 2014, the global economy began to slow down as investors had their attention on the developments at the European Central Bank and the US Federal Reserve (FED). Markets and the media continued to obsess over the timing of the highly anticipated first rate hike from the FED, despite weakening global inflation as a result of falling oil prices and monetary policy easing by more than two dozen central banks. While there were signs of improvement in the U.S. economy in several of the monthly data points, which helped investor sentiment, uncertainty remains both domestically and abroad. Consequently the pension fund, with the exception of the fixed income portion, and the Real Estate Investment Trust (REITS), experienced a decrease in returns when compared to prior year. The return on the domestic equity portion of the portfolio was 6.31% which was significantly lower than the benchmarks. The return on the fixed income portion of the portfolio was 3.56% vs. the Barclays Gov Corp index being 5.23%. The return on the international portion of the portfolio was -1.13% vs. the MSCI AC World EX USA index being 1.31%. The return on the REITS portion of the portfolio was 23.21% vs. the Wilshire US REIT Index being 24.17%
- The Plan’s past performance for the last three years are as follows: (reported in a full 12 month period)

Brazos River Authority**

MANAGEMENT'S DISCUSSION AND ANALYSIS

February 28, 2015 and 2014 (unaudited)

Current Environment

Effective May 18, 2015, the Retirement Committee of the BRA voted and approved the change in the mortality table used in the Actuary's assumptions. As a result of this change the BRA's net pension liability increased \$1,259,465.

There were 351 employees participating in the Plan as of the beginning of the year valuation date, March 1, 2014 compared to 356 as of the beginning of year valuation date March 1, 2013.

Contacting the Plan's Administrator

This financial report is designed to provide our participants and stakeholders with a general overview of the Plan's financial activities. If you have questions about this report or need additional financial information, contact the Human Resources Manager at 254-761-3104.

NOTES TO FINANCIAL STATEMENTS

February 28, 2015 and 2014

NOTE A - DESCRIPTION OF PLAN

The following description of the Retirement Plan for Employees of Brazos River Authority (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan, a single employer plan, was established in 1959 by the Brazos River Authority (the "BRA"), a governmental agency of the State of Texas, and was amended and restated effective September 1, 1997. Prior to the revision, the Plan was exclusively a defined benefit structure. Effective September 1, 1997, the Plan changed to a combination defined benefit and defined contribution structure (Internal Revenue Code ("Code") Section 401 (a) plan) for all eligible employees who first become participants (or who re-enter plan participation) on or after September 1, 1997. Employees who were active plan participants on August 31, 1997, made a one-time irrevocable election to choose either to remain under the benefit provisions of the prior plan as it existed August 31, 1997, or to have benefits determined under the new benefit provisions effective September 1, 1997. On July 16, 2007 the Board of Directors of the BRA approved adoption to freeze the plan as of September 30, 2007. The resolution amended the Plan by closing the Plan to new entrants, freezing benefit accrual service, limiting compensation and service contributions to the defined contribution component of the Plan. On October 18, 2010 the Board of Directors of the BRA approved a resolution to amend and restate substantially the form of the Plan effective November 30, 2010. The resolution spun-off the defined contribution portion into its own plan and at the same time made effective November 30, 2010 the termination of the Defined Contribution Plan for Employees of BRA. The Plan is administered by a Retirement Committee that is made up of four members selected from the Board of Directors (BOD) of the BRA and three members selected from employees of the BRA. All members are appointed by the Presiding Office of the BOD and ratified by the BOD. The Plan has a fiscal year-end of the last day in February.

Participation in the Plan as of the beginning of year valuation dates, March 1, 2014 and 2013 is composed of the following:

Group	<u>2014</u>	<u>2013</u>
Retirees and beneficiaries currently receiving benefits	109	105
Deferred Beneficiaries	2	2
Terminated plan members entitled to but not yet receiving benefits	118	117
Active plan members	<u>122</u>	<u>132</u>
	<u>351</u>	<u>356</u>

Contributions

The BRA's employees were not required or allowed to contribute to the Plan. The BRA intends to make, but does not guarantee, annual contributions in amounts at least equal to the amounts that would be required to meet the minimum funding requirements of Section 412 of the Code. The actuarial valuations for the Plan for the valuation date of March 1, 2015 and March 1, 2014 were performed by Gallagher Benefit Services, Inc. A copy of the assumptions used and methods of determining the required contribution for the fiscal years commencing September 1, 2015 and 2014 can be obtained by contacting the Human Resources Manager at 254-761-3104. The BRA made the minimum funding requirement for the plan years ending February 28, 2015 and 2014.

**Retirement Plan for Employees of
Brazos River Authority**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

February 28, 2015 and 2014

NOTE A - DESCRIPTION OF PLAN - Continued

Eligibility and Vesting

For all prior plan-electing participants, the vesting schedule shall be as follows:

<u>Years of Vesting Service</u>	<u>Vesting percentage</u>
Less than 15	0%
15 or more	100%

This is provided, however, that a prior plan-electing participant's vesting percentage shall be 100% upon the attainment of (i) normal retirement age of 65 years or (ii) age 45 plus the completion of five years of vesting service as defined.

For all other participants, the vesting schedule shall be as follows:

<u>Years of Vesting Service</u>	<u>Vesting percentage</u>
Less than 5	0%
5 or more	100%

Payment of Benefits

The Plan provides pension, disability and death benefits. The Plan's normal retirement age is 65. A participant may retire after reaching both the age of 55 and completing 15 years of service or after both attaining age 62 and completing 10 years of service.

Pension benefits are based on the participant's final average monthly compensation and credited service. Final average monthly compensation is defined as the participant's average monthly rate of basic compensation during whichever five successive calendar years out of the last ten calendar years immediately preceding the participant's termination date, provides the highest average monthly rate of compensation for the participant. Provided, however, compensation for calendar years beginning on or after January 1, 2008 shall not be included in the determination of average monthly compensation.

Retirement benefits begin on the participant's normal or early retirement date and normally continue for the participant's lifetime under the following options: (1) Monthly income payable throughout the lifetime of the participant with a specified guaranteed number of monthly payments with such guaranteed number, if any, being a multiple of 60; (2) Monthly income payable throughout the lifetime of the participant with a reduced percentage of such initial monthly income continuing after his death for the remaining lifetime, if any, of his joint pensioner; such reduced percentage shall be selected from three stated percentages; (3) Monthly income payable throughout the joint lifetime of the participant and his joint pensioner reducing to a percentage of such initial monthly income upon the death of either the participant or his joint pensioner and such reduced amount payable for the remaining lifetime, if any, of the survivor; such reduced percentage shall be selected from three percentages; (4) Monthly income payable throughout the lifetime of the participant with 100 percent of such monthly income continuing after his death for the remaining lifetime, if any, of his joint pensioner; (5) Monthly income payable for a specified guaranteed number of months for 120, 180 or 240 payments; (6) A combination of Option 5 with Option 2, Option

**Retirement Plan for Employees of
Brazos River Authority**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

February 28, 2015 and 2014

NOTE A - DESCRIPTION OF PLAN - Continued

3 or Option 4; or (7) A single, lump sum payment. A single, lump sum payment, however, is not payable if the lump sum payment is greater than \$10,000.

For early retirement and termination benefits, the age 65 retirement benefit is considered to accrue on a pro rata basis over service with the BRA. For retirement before age 62, the accrued retirement income is reduced by an actuarial reduction factor to account for the younger age of retirement and earlier commencement of retirement income payments.

A late retirement benefit is available for participants that continue service beyond normal retirement age. Benefits provided for on the delayed retirement date will not be less than the actuarial equivalent of the benefit the participant would have received had they retired on their normal retirement date.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

Valuation of Investments

Investments are carried at fair value based on quoted market prices. Mutual funds are reported at fair value based on quoted market prices which represent the net asset value of the shares or bonds held by the mutual fund. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan values investments in private equity funds based on its percentage investment in each such fund. The estimated fair value of each fund is based on market conditions and information reported by the fund managers and is generally based on the estimated fair value of each fund's underlying investments at the end of the reporting period.

Basis of Accounting

The financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Contributions are recognized when earned, and benefit amounts are recognized when due and payable under the terms of the Plan.

The BRA implemented GASB Statement No. 67, *Financial Reporting for Pension Plans*, effective for the year ended February 28, 2015. GASB Statement 67 revises existing guidance for the financial reports of most pension plans. The Statement enhances reporting requiring additional note disclosures and required supplementary information (RSI) for defined benefit pension plans.

Risk and Uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and, that such changes could materially affect the amounts reported in the statements of plan net position and the statements of changes in plan net position.

**Retirement Plan for Employees of
Brazos River Authority**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

February 28, 2015 and 2014

Related Party Transactions

During the years ended February 28, 2015 and 2014 there were no related party transactions other than the employer contributions.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

NOTE C - INVESTMENTS

Investment Policy

The investment policy's objective are to insulate the Plan's assets against deterioration of purchasing power caused by inflation, over time provide, at a minimum, the Plan actuarially assumed rate of return of the Plan and provide an acceptable lever of volatility in both long and short term periods.

The Plan's investment decisions are made by the investment managers following guidelines established by the Retirement Committee.

The Plan's investment consultant will generally be responsible for the following:

- Assist in the development and on-going review of investment policy, asset allocation strategy and performance of the investment managers,
- Conduct investment manager searches when requested by the Committee,
- Monitor the performance of the Investment Manager(s) to provide the Committee with the ability to determine the progress toward the investment objectives,
- Communicate matters of policy, manager research and manager performance to the Committee, and
- Act as liaison between the Committee and any outside investment managers, consultants, or other advisors in receiving and responding to inquiries, referrals and solicitations.

The primary investment objectives of the Plan are to:

- Insulate the Plan's assets against deterioration of purchasing power caused by inflation,
- Over time provide, at a minimum, the Plan actuarially assumed rate of return of the Plan, and
- To provide an acceptable level of volatility in both long and short term periods.

The Retirement Committee will generally be responsible for the following:

- Adopting and executing the Plan's investment policy,
- Establishing appropriate investment objectives,
- Hiring of trustees, investment consultants, managers and other service providers whose expertise is deemed by the Committee to be appropriate and necessary,
- Monitoring of performance and compliance with this policy by investment managers and other service providers who have been given responsibility over the Plan's assets, and
- Revising investment policy to reflect changing conditions within the Plan, or to refine the policy in order to make it more effective.

The investment managers are responsible for determining investment strategy and implementing security selection within the policy and guideline limitations.

**Retirement Plan for Employees of
Brazos River Authority**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE C - INVESTMENTS - Continued

Investment Policy target allocation

There were no changes to the target allocation during the current fiscal year. The following was the Committee's adopted targeted mixture of asset allocation policy as of the Plan years ended February 28, 2015 and 2014

Asset Class	Minimum	Maximum	Target
Total Public Equities	40%	70%	50%
Domestic Large Cap Equity	15%	40%	25%
Domestic Sm/Mid Cap Equity	7.5%	12.5%	10%
International Equity	12.5%	17.5%	15%
Total Fixed Income	15%	40%	25%
Other Alternative Investments			
Master Limited Partnerships	0%	15%	10%
Real Estate Investment Trusts	0%	15%	10%
Private Equity Partnerships	0%	10%	5%

Investments

Investments are valued at fair value, determined by quoted market prices. A comparison of original cost to fair value at the end of February is as follows:

	2015		2014	
	Fair Value	Cost	Fair Value	Cost
Equities-small cap funds	\$ 2,180,001	\$ 1,921,773	\$ 2,404,545	\$ 1,873,712
Equities-large cap funds	6,592,436	4,988,504	6,860,055	5,498,760
Master limited partnership	2,007,442	1,948,290	1,983,408	1,948,289
Fixed income mutual funds	4,008,588	4,040,224	4,464,471	4,505,767
International funds	3,203,231	2,457,440	3,309,835	2,457,440
Real estate investment trust	2,507,695	2,156,924	1,144,175	1,073,169
Fixed Income Tactical				
Opportunities Fund	1,038,773	995,788	1,009,818	995,788
Cash equivalents	353,369	353,369	542,195	542,195
	<u>\$ 21,891,535</u>	<u>\$ 18,862,312</u>	<u>\$21,718,502</u>	<u>\$18,895,120</u>

Rate of return and risk

For the year ended February 28, 2015, the annual money-weighted rate of return on the Plan investments, net of pension plan investment expense, was 5.8%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amount actually invested.

**Retirement Plan for Employees of
Brazos River Authority**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

February 28, 2015 and 2014

NOTE C - INVESTMENTS - Continued

The Plan's investments are subject to various risks that have the potential to result in losses. These risks are custodial credit risk, credit risk, concentration of credit risk, interest rate risk, and foreign currency risk. Each risk is described in detail on the following pages.

Custodial Credit Risk

Custodial credit risk for investments is the risk that in the event of a failure of a counter party to a transaction, the Plan will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. The Plan has no investment policy regarding custodial credit risk.

The Plan is exposed to minimal custodial credit risk. All investments are held in bank nominee name and not in the Plan's name.

Concentration of Credit Risk

Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. The Plan's investment policy states that all investment managers have full discretion in the management of those assets of the Plan allocated to the investment manager(s), subject to prospectus or the overall investment guidelines set by the Committee. Those prospectus state that manager(s) shall not purchase common stock or securities convertible into stock of any issuer if the purchase would cause the portfolio's assets to reach five percent (5%) of the outstanding voting stock; or more than ten percent (10%) in market value of all outstanding securities of a single issuer. Since it is the policy of the Plan to employ multiple managers with different investment strategies and styles, the single issuer concentrations are further reduced. Securities issued by or backed by the full faith and credit of the U.S. Government are not subject to position limits.

There were no investments in any one issuer in excess of 5% of plan net assets at February 28, 2015 or 2014.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. The Plan investment policy manages credit risk by limiting investments in equities and fixed income securities to those determined as creditworthy by the investment managers and listed as investment grade by nationally recognized rating agencies. As of February 28, 2015 and 2014 the average credit rating for the fixed income securities was AA- and AA (majority of securities rated by S&P and Fitch), respectively. Furthermore the Plan restricts, and is monitored by the Investment Consultant, equity transactions involving:

- Common stock in non-public corporations,
- Short sales of any type,
- Letter stock, and
- Buying or selling on margin.

NOTE C - INVESTMENTS - Continued

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of investments. The Plan is exposed to minimal interest rate risk, since more than 80% of the fixed income allocation of the plan has an *Foreign Currency Risk* average maturity of less than 4 years, and is benchmarked to the BC Intermediate Government Credit index and the BC US Credit 1-5 Year Index.

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. The Plan investment policy manages foreign currency risk by limiting investments in foreign companies to 17.5% of the Plan's assets, and employing investment managers that select companies whose results are not necessarily tied to the currency of their country of origin. Individual currencies may be risky, however a diversified portfolio of currencies have a positive diversification effect over time.

NOTE D – TOTAL PENSION LIABILITY

The total pension liability as of March 1, 2015 and 2014 are segmented as follows:

	2015	2014
Vested benefits of participants currently receiving payments	\$15,885,985	\$15,333,344
Other vested benefits	<u>14,090,536</u>	<u>12,637,094</u>
Total Pension Liability	<u>\$29,976,521</u>	<u>\$27,970,438</u>

The actuarial present value of total pension liability increased from March 1, 2014 to March 1, 2015 by \$2,006,083. This increase is a result of the following four elements: benefits paid in the amount of \$1,656,340; increases due to the change in the discount period in the amount of \$1,765,095; increases due to the benefits that accumulated, including experience gains and losses of \$637,863; and an increase due to the change in actuarial assumptions, in the current year, of \$1,259,465.

NOTE E – NET PENSION LIABILITY

The status of the BRA's net pension liability for the two most recent actuarial valuation dates as of March 1, 2015 and March 1, 2014 are as follows:

Actuarial Valuation Date	Total pension liability (a)	Plan Fiduciary net position (b)	BRA's Net pension liability (b – a)	Plan fiduciary net position as a % of the total pension liability (b/a)	Covered employee payroll	Net pension liability of the BRA as a % of covered employee payroll
March 1, 2015	\$ 29,976,521	\$ 21,895,301	\$ 8,081,220	73.04%	\$7,962,415	101.50%
March 1, 2014	\$ 27,970,438	\$ 21,721,542	\$ 6,248,896	77.66%	\$7,815,209	79.96%

Actuarial Assumptions

Additional information as of the two most recent actuarial valuation dates as of March 1, 2015 and 2014 are as follows:

	2015	2014
Actuarial cost method	Entry Age	Unit credit method
Payroll growth rate for amortization	N/A	N/A
Remaining amortization period	N/A	N/A
Actuarial Assumptions:		
Investment rate of return	6.5%*	6.5%*
Projected salary increase	N/A**	N/A**
Cost-of-living adjustments	N/A**	N/A**
*Includes inflation at	3.5%	3.5%

** Not applicable due to the amendment to freeze the Plan in 2007.

The schedules of the BRA’s net pension liability, presented as required supplementary information (“RSI”) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the plan fiduciary net position.

The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Effective May 18, 2015, the Retirement Committee of the BRA voted and approved the change in the mortality table used in the Actuaries assumptions. The new mortality table is the RP2000 Combined Healthy Mortality Table, Fully Generational with Scale AA, setback one year for males (changed from RP2000 Combined Healthy Mortality Table effective March 1, 2015).

Long-term expected rate of return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimated ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Plan’s target asset allocation as of February 28, 2015 (see the discussion of the Plan’s investment policy) are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>
Equities-small cap funds	9.24%
Equities-large cap funds	8.49%
International equity	9.24%
Fixed income	4.35%
Master limited partnerships	9.20%
Real estate investment trusts	8.55%
Private equity partnerships	10.13%
Cash	2.00%

Brazos River Authority**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

February 28, 2015 and 2014

NOTE E – NET PENSION LIABILITY – Continued

Discount rate

The discount rate used to measure the total pension liability was 6.5 percent. The projection of cash flows used to determine the discount rate assumed the contributions from the BRA will meet the minimum funding requirements as supplied by the actuarially determined computation. Based on those assumptions, the Plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity in the discount rate

The following presents the net pension liability of the Plan calculated using the discount rate of 6.5 percent, as well as what the Plan’s net pension liability would be if it were calculated using a discount rate that is 1- percentage point lower or 1-percentage point higher than the current rate:

	February 28, 2015		
	1% Decrease (5.5%)	Current Discount Rate (6.5%)	1% Increase (7.5%)
Brazos River Authority’s net pension liability	\$11,537,989	\$8,081,220	\$5,181,510

NOTE F - PLAN TERMINATION

The BRA may terminate the Plan at any time. In the event the Plan terminates, the Plan’s net assets held in trust shall be allocated among the participants and beneficiaries of the Plan in accordance with the following procedure:

- (a) The plan administrator shall determine the date of distribution and the asset value to be distributed, after taking into account the expenses of such distribution, and shall have a final accounting and allocation of plan assets performed as of the date of distribution;
- (b) The plan administrator shall determine the method of distribution of the asset value, on the basis that the amount required to provide any given benefit shall mean the actuarially equivalent single sum value of the accrued benefit on the date of the termination for the plan for each participant or other person entitled to benefits under the plan;
- (c) The plan administrator shall direct the trustee to make distributions to persons in the amounts and manner determined above, or in accordance with applicable regulatory or other guidance, as of the distribution date.

NOTE G - TAX STATUS

The Internal Revenue Service has determined and informed the BRA by a letter dated April 16, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Code and therefore, tax exempt. The Plan’s Retirement Committee believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and therefore, tax exempt.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
(Unaudited)

NOTE A – DESCRIPTION OF CHANGES IN THE BRA’S NET PENSION LIABILITY

The comparability of trend information is affected by changes in actuarial assumptions, benefit provisions, actuarial funding methods, accounting policies and other changes. Those changes usually affect trends in contribution requirements and in ratios that use the total pension liability as a factor. Isolated analysis of the dollar amounts of actuarial value of assets, total pension liability, and net pension liability can be misleading. The plan fiduciary net position as a percentage of the total pension liability provides an indication of the Plan’s funding status on a going-concern basis. Analysis of this percentage over time indicates whether the Plan is becoming financially stronger or weaker. Generally, the greater the percentage, the stronger the public employee retirement system is.

Additional information as of the two most recent actuarial valuation dates as of March 1, 2015 and 2014 are as follows:

	2015	2014
Actuarial cost method	Entry age method	Unit credit method
Payroll growth rate for amortization	N/A	N/A
Remaining amortization period	N/A	N/A
Actuarial Assumptions:		
Investment rate of return	6.5%*	6.5%*
Projected salary increase	N/A**	N/A**
Cost-of-living adjustments	N/A**	N/A**
*Includes inflation at	3.5%	3.5%

** Not applicable due to the amendment to freeze the Plan in 2007.

Effective May 18, 2015, the Retirement Committee of the BRA voted and approved the change in the mortality table used in the Actuaries assumptions. The new mortality table is the RP2000 Combined Healthy Mortality Table, Fully Generational with Scale AA, setback one year for males (changed from RP2000 Combined Healthy Mortality Table effective March 1, 2015).
